# Keynote Speakers

**Karen Smith**  
Childrens National Health System,  
USA

**Irena Bralic**  
University of Split, Croatia

**Zhan he Wu**  
Children's Hospital at Westmead,  
Australia

**Janet Mattsson**  
The Swedish Red Cross University  
College, Sweden

**I.M.Rogers**  
AIMST University, Malaysia

**Youssef Mohammed  
Bakr Habib**  
Alexandria Police Hospital, Egypt

## Keynote Speakers

## Presentation Title

**Karen Smith**

Childrens National Health System, USA

Partnering with Children with Medical Complexity and their Families to Improve Health Outcomes and Reduce Cost

**Irena Bralic**

University of Split, Croatia

Obesity in Children and Adolescents

**Zhan he Wu**

Children's Hospital at Westmead, Australia

Milestone Histories and Paradigmatic Genetic Discoveries of the Chronic Myeloid Leukemia (CML)

**Janet Mattsson**The Swedish Red Cross University College,  
Sweden

Digitalization in a technological environment, a pediatric operating theater

**I.M.Rogers**

AIMST University, Malaysia

Pyloric Stenosis of Infancy-the great mystery unravels

**Youssef Mohammed Bakr Habib**

Alexandria Police Hospital, Egypt

Relation between bronchial asthma and parasitic (nematodes) infection in egyptian children

## Oral Presentations

### Speaker

### Presentation Title

**Joelle N. Simpson**

Childrens National Health System, USA

Creating a work plan for emergency evacuation of a pediatric healthcare facility

**Ronald L. Thomas**

Wayne State University School of Medicine, USA

The danger of relying on the interpretation of p-values in single studies: Irreproducibility of results from clinical studies

**Linda Denecia Price**

WellStar Health System, USA

Not a Measly Discovery

**Rubia Khalak**

Albany Medical Center, USA

Maternal Obesity and Impact on the Neonate

**Satish Mehta**

Johnson Space Center, NASA Houston TX, USA

Dormant viruses activate during spaceflight – NASA investigates

**David J R Hutchon**

Memorial Hospital, UK

Avoiding early cord clamping at all births

**Rohit Kumar**

South Tees Hospitals NHS Foundation Trust,  
UK

Hazards of Neonatal Transfusion

**Paolo Montaldo**

Imperial College London, UK

Gene expression for disease stratification and prognostication in neonatal encephalopathy

**Shalabh Garg**

South Tees Hospitals NHS Foundation Trust,  
UK

Hypoxic Ischaemic Encephalopathy in Neonates: what do we learn from the case reviews?

**Kaye Talijancich**

Perth Paediatrics, Australia

The Role Of Laser In Tongue Tie Division : A Pilot Study

**Gabriella Di Rosa**

Policlinico Universitario, Italy

Neurodevelopmental trajectories in preterm infants: Early psychomotor profiles and long-term outcomes in high versus low-risk children

**Felice Amato**

University of Naples Federico II, Italy

The importance of functional studies in Cystic Fibrosis: from molecular diagnosis to clinical application

**Sandra Trapani**

Meyer Childrens University Hospital, Italy

Medically Unexplained Symptoms in Adolescence: A Challenge for the Future

**Paula Quigley**

DAI Global Health, Italy

Tackling a Hidden Burden: Stillbirths in the Developing World

**Marilena Trozzi**

Bambino Gesu Children's hospital - Rome, Italy

Pediatric tracheotomy: the evolution of indications in the third millennium

**Anne-Frederique Naviaux**

Health Service Executive, Ireland

Creation and Development of an out of hours Child and Adolescent Mental Health Emergency Service

**Lydie Da Costa**

Robert Debre Hospital, France

Targeted Next generation sequencing and exome sequencing in the causal diagnosis of hydrops fetalis

**Lilia jannet Saldarriaga Sandoval**

Universidade Federal de Ceara, Brazil

Construction and validation of content of checklist for patient safety in the administration of medicines in pediatrics

**Cintia Leci Rodrigues**

University of santo amaro, Brazil

Accidents involving children and adolescents falling from roof slabs on peripheral regions of Sao Paulo, Brazil

**Caio Vinícius da Fonseca Silva**

University of santo amaro, Brazil

A brief discussion of the role of pediatric health assistance in gender dysphoria youth patients

**Georgia de Sa Cavalcante Teixeira**

University of Santo Amaro, Brazil

Epidemiological profile of newborn babies from adolescent mothers, residents in the city of São Paulo

**Raphael Muszkat Besborodco**

University of Santo Amaro, Brazil

Pediatric trauma due to accidental fall in the city of São Paulo

**Frederico Ribeiro Pires**

Hospital da Criança de Brasília, Brazil

Anemia and thrombocytopenia: attention and care that the pediatrician must have during the service

**Thalia Harmony**

Universidad Nacional Autónoma de México, México

Neurorehabilitation, A Procedure To Decrease Neurologic And Cognitive Sequelae In Newborns With Perinatal Brain Injury

**Natalia Vaynshteyn**

Pirogov Russian National Research Medical University, Russia

CMV-Associated Enterocolitis In Neonates, Case Reports

**Natalia Vaynshteyn**

Pirogov Russian National Research Medical University, Russia

Experience Of Screening, Diagnostics And Treatment Congenital CMV

**Segundo Mesa Castillo**

Psychiatric Hospital of Havana, Cuba

Direct evidence of viral infection and mitochondrial alterations in the brain of fetuses at high risk for schizophrenia

**Mahmoud Galal Ahmed**

Dubai Health Authority, UAE

**Hadar Yardeni**

Ministry of health office, Israel

**Dani Yardeni**

Hadassah Medical Center, Israel

**Wendy N Phoswa**

University Of Kwazulu Natal, South Africa

**Xiangyu Gao**

Affiliated Xuzhou Hospital of Southeast University, China

**Xiangyu Gao**

Affiliated Xuzhou Hospital of Southeast University, China

**Yajuan Wang**

Beijing Childrens Hospital, Capital Medical University, China

Neonatal hyperbilirubinemia ...what we should not miss?

Rare Diseases Are Not Orphans In Israel

A comparison between Video-assisted transumbilical appendectomy and laparoscopic or open appendectomy in children

The Role of Highly Active Antiretroviral Therapy (HAART) on Interleukin 17A (IL-17A) in Normotensive and Pre-eclamptic Black South African Women

A control study of patent ductus arteriosus in preterm infants treated with acetaminophen and platelet-rich plasma

Use of a smartphone application to monitor neonatal and early infantile jaundice with an automatic image-based technique

Focus on neonatal invasive infections caused by Escherichia coli

**Inger Emilie Verland**

Stavanger University Hospital - Norway

Parents existential experiences when having a premature infant due to mother's preeclampsia

**Elva Bonifacio Andrade**

ICBAS / i3S, Portugal

A mouse model reproducing the pathophysiology of neonatal group B streptococcal infection

**Biljana Vuletic**

University of Kragujevac, Serbia

Probiotics In Paediatric Practice

**Rita Rufo**

University of Republic University,  
Montevideo

Strengthening tools for excellent perinatal care.

**Frasinariu Otilia**

University of Medicine and Pharmacy  
Grigore T. Popa Iasi, Romania

Sepsis in Pediatrics: Current Concepts of Terminology and Management

**Adnan Zafar**

King Fahad Medical City Riyadh, Saudi  
Arabia

CF infections and their impact on lung function-A Tertiary care study in Saudi Arabia

**Maha Jassim Bourusly**

NBK Children Specialty Hospital, Sabah  
health district, Ministry of Health, Kuwait

National Registry for Children with Cancer in Kuwait

**Nadia A Kotb**

Cairo University, Saudi Arabia

Sudden Unexpected Infant Deaths, an Old Challenge to Forensic Scientists

**Bana Nasser**

Prince Sultan Cardiac Centre Qassim, Saudi Arabia

Effects of blood transfusion on oxygen; Extraction ratio and central venous; Saturation in children after cardiac surgery

**Ashwani Kumar**

Sri Guru Ram Das Institute of Medical Sciences and Research, India

Vitamin D in Children – Role beyond bones

**K. M. Yacob**

Marma Health Centre, India

Why W neurons decreases and C neurons increases in fever

**Jessy Mavarayil John**

Assam Don Bosco University, India

Effectiveness of Life Skills Training to Enhance Mental Health Status and Wellbeing of Children and Adolescents

**Dr A Somasundaram**

Kanchi kamakoti Childs Trust Hospital, India

Early Intervention strategies in Developmental and Behavioral disorders

**K. M. Yacob**

Marma Health Centre, India

The Purpose of Temperature of Fever

## Poster Presentation

## Presentation Title

**Beatriz Servilha Brocchi**

Pontifical Catholic University of Campinas,  
Brazil

Comparison of pragmatic aspects of language development  
between children born preterm and full-term

**Erdnaxela Fernandes do Carmo Souza**

Samaritano Hospital, University Guarulhos,  
Brazil

Technology in the Promotion of Breastfeeding

**Yi Ren**

Affiliated Xuzhou Hospital of Southeast  
University, China

Relationship between platelet counts and plateletocrit in the first  
24 hours of life and haemodynamically significant patent ductus  
arteriosus in preterm infants

**Jorge Moreno-Fernandez**

University of Granada, Spain

Maternal DHA supplementation improves transplacental Fe ho-  
meostasis and supply to the foetus

**Mahmoud Galal Ahmed**

Dubai Health Authority, UAE

Congenital Skull bone Depression in neonate....What is the fate?

**Hee Joong Lee**

The Catholic University of Korea, South  
Korea

Diabetes and Threatened abortion

**Banghyun Lee**

Hallym University, Kandong Sacred Heart Hospital, South Korea

Influence of Vaginal progesterone and oral progesterone on threatened abortion

**Beatriz Servilha Brocchi**

Pontifical Catholic University of Campinas, Brazil

Relationship between language development and birth conditions of children born premature

**Jorge Moreno-Fernandez**

University of Granada, Spain

Maternal DHA supplementation improves neonatal bone turnover

**Yi Ren**

Affiliated Xuzhou Hospital of Southeast University, China

The effects on accuracy of image-based estimating neonatal jaundice with a smartphone APP in the different conditions
