📘 @PaediatricsConf

Keynote Speakers

Karen Smith
Childrens National Health System,
USA

Irena Bralic
University of Split, Croatia

Zhan he Wu
Children's Hospital at Westmead,
Australia

Janet Mattsson
The Swedish Red Cross University
College, Sweden

I.M. Rogers
AIMST University, Malaysia

**Youssef Mohammed
Bakr Habib**
Alexandria Police Hospital, Egypt

Keynote Speakers

Presentation Title

Karen Smith

Childrens National Health System, USA

Partnering with Children with Medical Complexity and their Families to Improve Health Outcomes and Reduce Cost

Irena Bralic

University of Split, Croatia

Obesity in Children and Adolescents

Zhan he Wu

Children's Hospital at Westmead, Australia

Milestone Histories and Paradigmatic Genetic Discoveries of the Chronic Myeloid Leukemia (CML)

Janet MattssonThe Swedish Red Cross University College,
Sweden

Digitalization in a technological environment, a pediatric operating theater

I.M.Rogers

AIMST University, Malaysia

Pyloric Stenosis of Infancy-the great mystery unravels

Youssef Mohammed Bakr Habib

Alexandria Police Hospital, Egypt

Relation between bronchial asthma and parasitic (nematodes) infection in egyptian children

Speaker

Presentation Title

Joelle N. Simpson

Childrens National Health System, USA

Creating a work plan for emergency evacuation of a pediatric healthcare facility

Michael J. Cooper

University of California, USA

Cardiovascular Aspects of the Preparticipation Sports Physical

Ronald L. Thomas

Wayne State University School of Medicine, USA

The danger of relying on the interpretation of p-values in single studies: Irreproducibility of results from clinical studies

Linda Denecia Price

WellStar Health System, USA

Not a Measly Discovery

Rubia Khalak

Albany Medical Center, USA

Maternal Obesity and Impact on the Neonate

David J R Hutchon

Memorial Hospital, UK

Avoiding early cord clamping at all births

Paolo Montaldo

Imperial College London, UK

Gene expression for disease stratification and prognostication in neonatal encephalopathy

Kaye Talijancich

Perth Paediatrics, Australia

The Role Of Laser In Tongue Tie Division : A Pilot Study

Gabriella Di Rosa

Policlinico Universitario, Italy

Neurodevelopmental trajectories in preterm infants: Early psychomotor profiles and long-term outcomes in high versus low-risk children

Felice Amato

University of Naples Federico II, Italy

The importance of functional studies in Cystic Fibrosis: from molecular diagnosis to clinical application

Paula Quigley

DAI Global Health, Italy

Tackling a Hidden Burden: Stillbirths in the Developing World

Marilena Trozzi

Bambino Gesù Children's hospital - Rome, Italy

Pediatric tracheotomy: the evolution of indications in the third millennium

Anne-Frederique Naviaux

Health Service Executive, Ireland

Creation and Development of an out of hours Child and Adolescent Mental Health Emergency Service

Lydie Da Costa

Robert Debre Hospital, France

Targeted Next generation sequencing and exome sequencing in the causal diagnosis of hydrops fetalis

Lilia jannet Saldarriaga Sandoval

Universidad Federal de Ceara, Brazil

Construction and validation of content of checklist for patient safety in the administration of medicines in pediatrics

Cintia Leci Rodrigues

University of santo amaro, Brazil

Accidents involving children and adolescents falling from roof slabs on peripheral regions of Sao Paulo, Brazil

Caio Vinícius da Fonseca Silva

University of santo amaro, Brazil

A brief discussion of the role of pediatric health assistance in gender dysphoria youth patients

Georgia de Sa Cavalcante Teixeira

University of santo amaro, Brazil

Epidemiological profile of newborn babies from adolescent mothers, residents in the city of São Paulo

Raphael Muszkat Besborodco

University of santo amaro, Brazil

Pediatric trauma due to accidental fall in the city of Sao Paulo

Thalia Harmony

Universidad Nacional Autonoma de Mexico, Mexico

Neurohabilitation, A Procedure To Decrease Neurologic And Cognitive Sequelae In Newborns With Perinatal Brain Injury

Natalia Vaynshteyn

Pirogov Russian National Research Medical University, Russia

CMV-Associated Enterocolitis In Neonates, Case Reports

Natalia Vaynshteyn

Pirogov Russian National Research Medical University, Russia

Experience Of Screening, Diagnostics And Treatment Congenital CMV

Segundo Mesa Castillo

Psychiatric Hospital of Havana, Cuba

Direct evidence of viral infection and mitochondrial alterations in the brain of fetuses at high risk for schizophrenia

Mahmoud Galal Ahmed

Dubai Health Authority, UAE

Neonatal hyperbilirubinemia ...what we should not miss?

Hadar Yardeni

Ministry of health office, Israel

Rare Diseases Are Not Orphans In Israel

Dani Yardeni

Hadassah Medical Center, Israel

A comparison between Video-assisted transumbilical appendectomy and laparoscopic or open appendectomy in children

Wendy N Phoswa

University Of Kwazulu Natal, South Africa

The Role of Highly Active Antiretroviral Therapy (HAART) on Interleukin 17A (IL-17A) in Normotensive and Pre-eclamptic Black South African Women

Xiangyu Gao

Affiliated Xuzhou Hospital of Southeast University, China

A control study of patent ductus arteriosus in preterm infants treated with acetaminophen and platelet-rich plasma

Xiangyu Gao

Affiliated Xuzhou Hospital of Southeast University, China

Use of a smartphone application to monitor neonatal and early infantile jaundice with an automatic image-based technique

Inger Emilie Verland

Stavanger University Hospital - Norway

Parents existential experiences when having a premature infant due to mother's preeclampsia

Biljana Vuletic

University of Kragujevac, Serbia

Probiotics In Paediatric Practice

Rita Rufo

University of Republic University, Montevideo

Strengthening tools for excellent perinatal care.

Adnan Zafar

King Fahad Medical City Riyadh, Saudi Arabia

CF infections and their impact on lung function-A Tertiary care study in Saudi Arabia

Nadia A Kotb

Cairo University, Saudi Arabia

Sudden Unexpected Infant Deaths, an Old Challenge to Forensic Scientists

Bana Nasser

Prince Sultan Cardiac Centre Qassim, Saudi Arabia

Effects of blood transfusion on oxygen; Extraction ratio and central venous; Saturation in children after cardiac surgery

K. M. Yacob

Marma Health Centre, India

Why W neurons decreases and C neurons increases in fever

K. M. Yacob

Marma Health Centre, India

The Purpose of Temperature of Fever

Poster Presentation

Presentation Title

Beatriz Servilha Brocchi

Pontifical Catholic University of Campinas, Brazil

Comparison of pragmatic aspects of language development between children born preterm and full-term

Erdnaxela Fernandes do Carmo Souza

Pirogov Russian National Research Medical University, Russia

Technology in the Promotion of Breastfeeding

Yi Ren

Affiliated Xuzhou Hospital of Southeast University, China

Relationship between platelet counts and plateletcrit in the first 24 hours of life and haemodynamically significant patent ductus arteriosus in preterm infants

Mahmoud Galal Ahmed

Dubai Health Authority, UAE

Congenital Skull bone Depression in neonate...What is the fate?

Hee Joong Lee

The Catholic University of Korea, South Korea

Diabetes and Threatened abortion

Banghyun Lee

Hallym University, Kandong Sacred Heart Hospital, South Korea

Influence of Vaginal progesterone and oral progesterone on threatened abortion

Beatriz Servilha Brocchi

Pontifical Catholic University of Campinas, Brazil

Relationship between language development and birth conditions of children born premature

Yi Ren

Affiliated Xuzhou Hospital of Southeast University, China

The effects on accuracy of image-based estimating neonatal jaundice with a smartphone APP in the different conditions
